## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 05 November 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,585,691 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 1-4 and 6-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the drive assembly interconnecting the end cap and the syringe cap to dispose the syringe cap into a fluid restricting position upon selective movement of the end cap member (claim 1) and the end cap member interconnected with the syringe cap where the end cap is structured to dispose the syringe cap into a fluid restricting position upon selective movement of the end cap member and where the end cap member is detachable from the indicator member and removable from the syringe cap and nozzle upon a predetermined force applied to the end cap member (claim 14) in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
